

Team Code of Conduct Agreement

SG CampusSwap — Mobile App Development Project

12-Week Timeline

6 Team Members

Agile / Scrum

Week 3 of 12

1. Team Members & Roles

#	NAME	ROLE	KEY RESPONSIBILITIES
1	Huang Hongrui	Project Manager	Project planning & coordination, stakeholder communication, risk management, meeting minutes, final report oversight
2	Renxian Tang	Frontend Developer (Lead)	React Native app architecture, core screen implementation, navigation & state management, API integration
3	Wang Bowei	Backend Developer (Lead)	RESTful API design & development, PostgreSQL database schema, .edu.sg auth system, AWS deployment
4	Jiahai Xiong	Frontend Developer	Chat module UI, user profile & rating screens, search & filter interface, component testing
5	Wang Xu	Backend Developer	Firebase real-time chat integration, image upload API (Cloudinary), search indexing, API documentation
6	Junliang Li	UI/UX Designer & QA	Wireframes & high-fidelity mockups (Figma), usability testing, test case writing, bug tracking, testing report

Note: All members contribute to the Literature Review on an ongoing basis throughout the semester.

2. Communication & Meetings

Communication Channels

- WeChat Group** — Daily asynchronous communication. All members must respond to direct mentions within **12 hours**.
- GitHub Issues & Pull Requests** — All technical discussions, code reviews, and task tracking. PRs require **at least one review** before merging.

- 3 **Google Drive** — Central repository for all project documentation (meeting minutes, reports, design files). All members must maintain their sections.

- 4 **Trello / Notion** — Product backlog and sprint task board. Updated **before every sprint review**.

Regular Meeting Schedule

Weekly Team Meeting

Every Wednesday, 11:00 AM–1:00 PM
Face-to-face (team gathering slot)
All public/team matters handled in this window

Sprint Review

Every other Friday, 5:00–6:00 PM
Demo completed features
Stakeholder update

Sprint Retrospective

After each Sprint Review
30–45 minutes
What went well / what to improve

Stand-up (Async)

Tue / Wed / Thu by 10:00 AM
WeChat text update
3 questions format

Meeting minutes must be documented in Google Drive within 24 hours of each meeting. Rotating note-taker schedule.

3. Code of Conduct & Expectations

- 1 **Respect & Inclusivity** — All team members will treat each other with respect. We value diverse opinions and foster an inclusive environment. No form of harassment, discrimination, or disrespectful language will be tolerated.
- 2 **Accountability** — Each member takes ownership of their assigned tasks. If a deadline cannot be met, the member must notify the Project Manager **at least 24 hours in advance** to arrange support or redistribution.
- 3 **Punctuality** — Attend all scheduled meetings on time. If unable to attend, notify the team at least **2 hours before** the meeting and catch up via meeting minutes.
- 4 **Quality & Integrity** — All code must be reviewed before merging. No plagiarism. All external sources must be properly cited. Commit messages must be clear and descriptive.
- 5 **Constructive Feedback** — Give feedback that is specific, actionable, and kind. Receive feedback with an open mind. The goal is team growth, not blame.
- 6 **Transparency** — Share progress, blockers, and concerns openly. No hiding problems — early communication prevents last-minute crises.
- 7 **Contribution Balance** — Workload should be distributed fairly. If any member feels overburdened or underutilized, they should raise it with the PM immediately.

- 8 **Continuous Improvement** — Each sprint retrospective must produce at least one actionable improvement item. The team commits to implementing it in the next sprint.

4. Decision-Making & Conflict Resolution

Decision-Making Process

- 1 **Consensus First** — The team aims for consensus on all major decisions (scope changes, architecture choices, timeline adjustments).
- 2 **Majority Vote** — If consensus cannot be reached after thorough discussion, a majority vote (4 of 6) decides. The PM casts the tie-breaking vote if needed.
- 3 **PM Authority** — For urgent operational decisions (e.g., merging a hotfix, reassigning a task due to illness), the PM has authority to decide unilaterally and inform the team afterward.
- 4 **Scope Changes** — Any feature addition after Week 4 requires a team vote and timeline re-evaluation. The default answer is "add to Future Version backlog."

Conflict Resolution Escalation Path

Conflicts should be addressed within **48 hours** of arising. Do not let issues fester.

5. Technical Work Practices

- 1 **Branching Strategy** — `main` branch is always deployable. Feature branches named `feature/<name>`. Bug fixes in `fix/<name>`. Never commit directly to `main`.
- 2 **Code Review** — Every PR requires at least **one approving review** from a different team member. Review within 24 hours of request.
- 3 **Documentation** — API endpoints documented in the shared Google Doc. README kept up-to-date. Complex logic should have inline comments explaining *why*, not what.
- 4 **Testing** — Write unit tests for critical paths (auth, listing CRUD, chat). Manual testing checklist before each sprint review. Bugs logged in GitHub Issues with clear reproduction steps.
- 5 **Commits** — Commit messages follow conventional commits: `feat:`, `fix:`, `docs:`, `refactor:`, `test:`. Commit early, commit often.

6. Team Commitment Statement

As members of the SG CampusSwap project team, we collectively agree to:

- ✓ Dedicate approximately **6–8 hours per week** to this project outside of scheduled meetings.
- ✓ Complete all assigned tasks by agreed-upon deadlines, or communicate early if unable to do so.
- ✓ Attend all scheduled meetings prepared and on time.
- ✓ Uphold the principles of respect, transparency, and accountability in all team interactions.
- ✓ Produce our best work — this project represents our collective capability to future employers and stakeholders.
- ✓ Support fellow team members when they face challenges. We succeed or fail **as a team**.

7. Signatures — Agreement to this Code of Conduct

By signing below, each team member confirms they have read, understood, and agree to abide by this Code of Conduct Agreement throughout the SG CampusSwap project duration (2026 TR2).

Huang Hongrui

Project Manager

Renxian Tang

Frontend Developer (Lead)

Wang Bowei

Backend Developer (Lead)

Jiahai Xiong

Frontend Developer

Wang Xu

Backend Developer

Junliang Li

UI/UX Designer & QA

Date of Agreement: 3 June 2026 | This document is valid for the full project duration (12 weeks)
